**Fresh is always  
in a hurry**  
(so we deliver within 24 hours from stock)

## In-house and state-of-the art machinery.

We manufacture all corrugated packaging in-house on our corrugated board machinery. De Jong Packaging is the largest and only independent Dutch producer of corrugated packaging, with two corrugators on one site. This enables us to be very flexible in producing the perfect

packaging for you. On our extensive and complete production department we operate the very latest processing machines. Here we print, die-cut and glue all types and sizes of corrugated trays, 4-corner glued boxes and standard Fefco 0201 boxes, to name a few.

## About De Jong Packaging.

De Jong Packaging is a truly international company with 350 employees that currently produces over 300 million m<sup>2</sup> of corrugated board packages each year. Currently the site is 120,000 m<sup>2</sup> production facility and growing. We are the market leader in corrugated board packaging in the Dutch market gardening sector, however we also supply our products in Germany, UK, Belgium and Ireland. Our strong position in the corrugated produce sector has been reinforced

by a significant growth of sales in the flower, FMCG, dairy, food, drink general and industrial corrugated packaging industry. The company was founded by the successful independent entrepreneur Henk de Jong who started to produce the packaging that his own market gardening company needed for its own products. So from being a customer of a packaging company he also became a packaging producer who knows exactly what his customers need.

CORRUGATED  
MANUFACTURER**

# Discover how our fast and reliable corrugated can grow your business.

In your daily operations, time is everything. Whether you're in fresh produce or in fast moving consumer goods, a speedy delivery of your packaging is essential for the success of your business. Having our roots in the market gardening industry and bringing over 20 years of experience in paper based packaging, De Jong Packaging understands your needs like no other. We help you grow your business with a fast and reliable supply of corrugated packaging for your flowers, dairy, food, beverage products or other FMCG's.

## Guaranteed on-time delivery.

De Jong Packaging guarantees on-time delivery of your packaging. We have an extensive transport capacity with our own vehicles and drivers, but we also work together with multiple transport companies that are specialized in the transport between the British Isles and The Netherlands. Our own dispatch

department will consult with you to determine when, how and where you want your packaging to be delivered. The advantage of our fully in-house logistics service is that we are able to deliver 6 days a week, from Monday to Saturday. If required, even delivery within 24 hours is possible!

### The benefits of De Jong Packaging:

- 25 million packages in stock
- Supplies 'shelf ready packaging'
- Daily delivery and within 24 hours
- Unlimited design options in preprint, flexo print and plain
- 2 corrugators producing 400 million boxes per year
- 13 die cutters, case makers and Gluers
- Competitive prices and cost-saving services
- Trade in £'s and €'s
- Personal assistance from our client service team

## Cost-saving warehouse services.

Our logistics service goes beyond just the delivery of your packaging. De Jong Packaging has a sizeable storage area of 30.000 m<sup>2</sup> where we can keep your standard packaging in stock for you. The advantage for you is that you do not need to invest your own operating

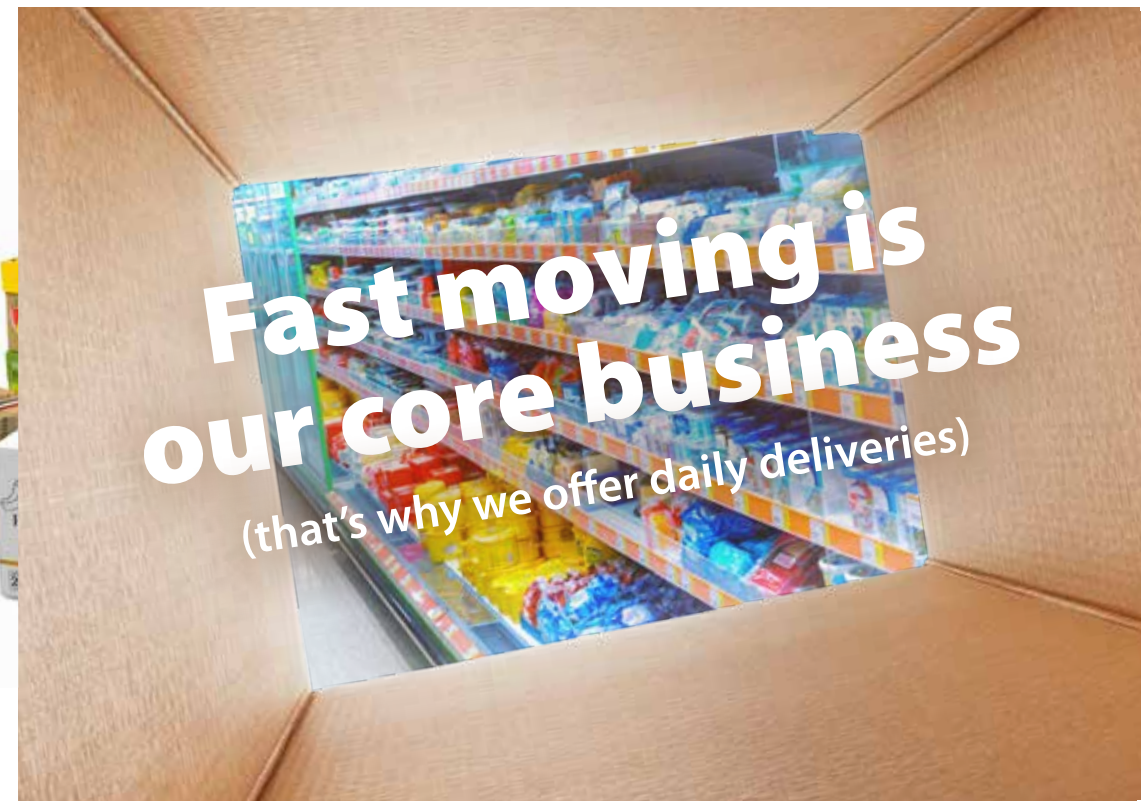

capital in your packaging stocks until your packaging is actually delivered to you. Moreover, your packaging is always available whenever you need it. So you can always pack, dispatch and invoice your products without having your own packaging stocks! No unnecessary costs.

## Your product deserves the perfect packaging.

De Jong Packaging offers a wide range of corrugated boxes and trays in all sizes and shapes. Besides supplying standard (unprinted) packaging, we are also happy to design customised, corrugated packaging in close collaboration with you. Our focus is not only to protect your products against damage, but also to let them

stand out from the competition at point of sale. We can produce in full colour and even photographic images of your product on the packaging. The ideal tray consists of a combination of the transport and stacking function that you require and optimal manufacturability of your corrugated board trays on our machines.

**25 million packages in stock**  
(your packaging is available whenever you need it)

**Fast moving is our core business**  
(that's why we offer daily deliveries)
